

## Abstract

Hasrianto 2021. *Pedagogic Competency Analysis of PPKn Teachers in Learning Activities at SMA Negeri 9 Sinjai Kec. Tellulimpoe*. Thesis, Department of Pancasila and Citizenship Education, Faculty of Teacher Training and Education, Muhammadiyah University of Makassar. Supervisor I Rosleny Babo and Supervisor II Jumiati Nur.

Pedagogic competence is the ability to manage student learning. Competence must be owned by the teacher because it is related to the characteristics of students seen from various aspects such as physical, moral, social, cultural, and intellectual. This implies that a teacher must be able to master learning theories and educational learning principles because students have different characters, traits, and interests.

This type of research uses qualitative research where this research is expected to explain the existing phenomena, especially those related to the pedagogic competence of Pancasila and Citizenship Education teachers.

The results of this study indicate that the pedagogical competence of PPKn teachers in SMA Negeri 9 Sinjai Kec. Tellulimpoe has a fairly good ability in mastering the characteristics of students, applying the principles of curriculum development related to the subjects being taught, mastery of learning theory not only using one method but using several learning methods, teachers have used technology, information and communication in the interests of learning.
