

ABSTRACT

Herma Haidi. 2022. Implementation of Learning Management in Improving Honesty to Anticipate a Culture of Corruption at Al Biruni Mandiri Islamic Senior High School Makassar. Supervised by Prof. Dr. Abd. Rahman Getteng and Dr. Moh. Rusli Malli, M.Ag.

This study aims to (1) identify the implementation of learning management at Al Biruni Mandiri Islamic Senior High School Makassar in increasing honesty in anticipating a culture of corruption against students, (2) identifying efforts to increase honesty in anticipating an anti-corruption culture for students through learning at Al Biruni Mandiri Islamic High School Makassar, (3) identify the supporting and inhibiting factors of the application of honesty to anticipate the culture of corruption in SMAITAI-Biruni Mandiri Makassar. This study uses a qualitative analysis method with data collection techniques through documentation, literature study and interviews with principals, teachers in charge of special subjects, teaching staff, and several students.

The results showed that the implementation of learning management at the Al Biruni Mandiri Islamic Senior High School Makassar was in accordance with the management function itself. This can be seen from the planning, implementation, and evaluation carried out by the Al Biruni Mandiri Islamic Senior High School Makassar which has gone well. Efforts to increase honesty in anticipating a culture of corruption against students through learning at Al Biruni Mandiri Islamic Senior High School Makassar is to combine world knowledge with religious knowledge. In addition, by applying school culture properly, it can instill honesty in students. The supporting factors are cooperation between teachers in schools and support from parents, the inhibiting factor is the low interest of students to take part in activities about honesty and environmental factors from outside the school.

ABSTRACT

Herma Haidi, 2022. Implementation of Learning Management in Improving Honesty to Anticipate a Corruption Culture at Al Biruni Mandiri Islamic Senior High School Makassar. Supervised by Abd. Rahman Getteng and Muh. Rusli Malli.

This study aimed to (1) identifying the implementation of learning management at Al Biruni Mandiri Islamic High School Makassar in increasing honesty to anticipate a culture of corruption on students, (2) identifying efforts to increase honesty in anticipating an anti-corruption culture for students through learning at Al Biruni Mandiri Islamic High School Makassar, (3) identifying the supporting and inhibiting factors of the application of honesty to anticipate the culture of corruption at SMAIT Al-Biruni Mandiri Makassar. This study used a qualitative analysis method with data collection techniques through documentation, literature study and interviews with principals, teachers in charge of special subjects, teaching staff, and several students.

The results showed that the implementation of learning management at Al Biruni Mandiri Islamic Senior High School Makassar was already based on the management function itself. This can be seen from the planning, implementation, and evaluation carried out by the Al Biruni Mandiri Islamic Senior High School Makassar which gone well. The efforts to increase honesty in anticipating a culture of corruption on students through learning at Al Biruni Mandiri Islamic Senior High School Makassar was to combine Dunya knowledge with religious knowledge. In addition, by applying school culture properly, it instilled honesty on students. The supporting factors were cooperation between teachers at school and support from parents, the inhibiting factor was the low interest of students to take part in activities about honesty and environmental factors from outside the school.
