ABSTRACT

Anisyah, 2022. The Impact of Strict Government Policy on Studying From Home During the Covid-19 Pandemic on Student Behavior in Learning English at SMP Negeri 2 Tanete Rilau. Supervised by **Muhammad Arif Paturusi** and **Andi Bulkis Maghfirah Mannong**

The purpose of this study was to find out how the behavior of students during the English learning process took place both in terms of positive behavior and negative behavior of students at SMP Negeri 2 Tanete Rilau.

This study used qualitative descriptive method that involves one type of instrument in data collection, namely interviews. The subjects of this study was eighth grade students of SMP Negeri 2 Tanete Rilau which consisted of one class. The object of this research is class VIII students. Data was analyzed by looking at student behavior during the learning process.

The impact experienced by students during the learning process is a positive impact and a negative impact. The positive impact is that students can help with some of their parents' work at home, students don't feel tired at school. While the negative impact experienced by students is not understanding the learning material, lack of internet access which sometimes runs out of quota during learning.

ABSTRACT

Anisyah, 2022. The Impact of Strict Government Policy on Studying From Home During the Covid-19 Pandemic on Student Behavior in Learning English at SMP Negeri 2 Tanete Rilau. Dibimbing Oleh **Muhammad Arif Paturusi** dan **Andi Bulkis Maghfirah Mannong**

Tujuan dari penelitian ini adalah untuk mengetahui bagaimana perilaku siswa selama proses pembelajaran Bahasa Inggris berlangsung baik ditinjau dari perilaku positif maupun perilaku negatif siswa di SMP Negeri 2 Tanete Rilau.

Penelitian ini menggunakan metode deskriptif kualitatif yang melibatkan satu jenis instrument dalam pengumpulan data, yaitu wawancara. Subjek penelitian ini adalah siswa kelas VIII SMP Negeri 2 Tanete Rilau yang terdiri dari satu kelas. Objek penilitian ini adalah siswa kelas VIII. Data dianalisis dengan melihat perilaku siswa selama proses pembelajaran.

Dampak yang dialami siswa selama proses pembelajaran adalah dampak positif dan dampak negatif. Dampak positifnya siswa dapat membantu sebagian pekerjaan orang tuanya di rumah, siswa tidak merasa lelah di sekolah. Sedangkan dampak negatif yang dialami siswa adalah tidak pahamnya materi pembelajaran, kurangnya akses internet yang terkadang kehabisan kuota saat pembelajaran.
