

ABSTRACT

Nursaskia Alfasyahri 2023. *The relationship between Extrovert-Introvert Personality and student Speaking Performance in SMAN 8 GOWA*. Under the Thesis of English Education Department the Faculty of Teacher Training and Education, University Muhammadiyah Makassar, Supervised by Saiful and Hijrah.

The objectives of this research were: (1) to identify the students' personality extrovert and introvert. (2) to find out the speaking performance between students' personality extrovert and introvert of XI IPA 1 and XI IPA 2 in SMAN 8 GOWA. The method of this research was quantitative research. This research used two instruments: Eysenck Personality Questionnaire (EPQ) and speaking test. The subject of this research was XI IPA 1 and XI IPA 2 in SMAN 8 GOWA. This research used simple random sampling technique. The sample of this research consisted 10 students. The result of this research identified the students' personality that categorized in extrovert personality (40%), introvert personality (30%) and ambivert personality (30%). Based on the research result found that the score of speaking performance of the extrovert score was 81-100 and the mean of an introvert was 60-69. It was indicated, that extrovert personality more dominant in speaking than introvert personality.

Keywords: *Personality, Extrovert, Introvert, and Speaking Performance.*
