Penelitian ini bertujuan untuk menganalisis implementasi pengelolaan zakat pertanian di Desa Bulo Kecamatan Panca Rijang Kabupaten Sidenreng Rappang dari perspektif hukum Islam. Zakat pertanian memiliki peran penting dalam redistribusi kekayaan dan kesejahteraan masyarakat, khususnya dalam konteks ekonomi Islam. Desa Bulo dipilih sebagai lokasi penelitian karena representatif sebagai daerah pertanian dengan potensi zakat yang signifikan, dan banyak masyarakat menunaikan zakat pertanian secara mandiri tanpa melibatkan lembaga amil zakat.

Metode penelitian yang digunakan adalah pendekatan kualitatif dengan pengumpulan data melalui wawancara, observasi, dan studi dokumentasi. Analisis dilakukan dengan merinci implementasi pengelolaan zakat pertanian, termasuk proses pengumpulan, distribusi, dan pengawasan zakat. Perspektif hukum Islam digunakan sebagai landasan teoretis untuk mengevaluasi sejauh mana pelaksanaan pengelolaan zakat pertanian sesuai dengan prinsip-prinsip syariah.

Hasil penelitian menunjukkan bahwa implementasi pengelolaan zakat pertanian di Desa Bulo tergolong baik, namun pengelolaan zakat pertanian secara mandiri seringkali menghadapi tantangan, termasuk ketidaksesuaian dengan perspektif hukum Islam dan perbedaan dalam pendapat ahli fikih. ABSTRACT

Mufti Adil. 105261116820. *Implementation of Agricultural Zakat Management in Bulo Village, Panca Rijang Subdistrict, Sidenreng Rappang Regency from the Perspective of Islamic Law.* Nur Asia Hamzah. Rapung.

This research aims to analyze the implementation of agricultural zakat management in Bulo Village, Panca Rijang Subdistrict, Sidenreng Rappang Regency from the perspective of Islamic law. Agricultural zakat plays a crucial role in the redistribution of wealth and the welfare of the community, particularly in the context of Islamic economics. Bulo Village was chosen as the research location because it is representative of an agricultural area with significant zakat potential, and many community members independently fulfill agricultural zakat without involving zakat amil institutions.

The research method used is a qualitative approach with data collection through interviews, observations, and documentary studies. The analysis is conducted by detailing the implementation of agricultural zakat management, including the processes of collection, distribution, and supervision of zakat. The perspective of Islamic law is utilized as the theoretical foundation to evaluate the extent to which the implementation of agricultural zakat management aligns with Sharia principles.

The results of the research indicate that the implementation of agricultural zakat management in Bulo Village is generally good, but independently managing agricultural zakat often faces challenges, including inconsistencies with the perspective of Islamic law and differences in the opinions of fiqh experts. This research provides recommendations to enhance community understanding and strengthen supervision mechanisms to ensure the sustainability and justice of agricultural zakat management in Bulo Village and similar areas.
