ABSTRACT

Muh Nur Alfi Zahar Sam. 2021. Inter-ethnic social integration (Study: Social solidarity of urban residents in Bajeng sub-district, Gowa regency. Thesis, Magister Study Program in Sociology Education, Postgraduate Muhammadiyah University Makassar. Supervisor 1 Kaharuddin and Supervisor 2 Dr. Jamaluddi.

This study discusses the social solidarity of urban residents in the Bajeng sub-district, Gowa Regency. With the formulation of the problem How urban residents create social solidarity in Bajeng District, Gowa Regency, and How urban population solidarity encourages social integration in Bajeng District, Gowa Regency. This type of research is qualitative research that aims to analyze the social solidarity relationship of urban residents in Bajeng District, Gowa Regency. Informants are determined by purposive sampling, based on needs. The informants are urban residents in the Bajeng District, Gowa Regency, and government staff in the Bajeng District. Data collection techniques include observation, interviews, and documentation. Data analysis techniques go through various stages, namely collecting data, exploring data, analyzing, and concluding data.

The results of this study indicate that the social solidarity of urban residents in Bajeng District, Gowa Regency can be said to be very closely intertwined because they are more concerned with common interests than their individual personal needs. Many of them will always take their time just to assist in the form of material or non-material to the people in Bajeng District, Gowa Regency. With a high sense of solidarity among urban residents, indigenous people feel helped by their presence.
