# Maqashid Syari'ah Index Model in Sharia Bank

<https://doi.org/10.35912/bukhori.v3i1.2283>

Published: Jul 20, 2023

## Abstract:

**Purpose:** This study aims to identify the appropriate model for measuring the level of Maq'hid syar'ah in sharia banking.

**Methodology:** The method used is a qualitative method with a literature approach. The data used are the results of published research using the Maq'hid syar'ah index with the study object of sharia banking.

**Results:** The results of the study indicate that there are 5 measurement concepts used in measuring the sharia-compliance of Sharia banks using the Maq'hid syar'ah index. Of the five concepts, there is a fundamental similarity that is the key to achieving the goal of Maq'hid syar'ah, which is purifying the soul, justice, and public welfare. A simple model that can be used to measure quantitatively is by using 3 main instruments; Interest-free business for the purpose of purifying the soul, Zakat for the purpose of achieving justice, and real investment for the purpose of realizing welfare (maslaha).

## Keywords:

1. Model
2. Sharia Bank
3. Maqāshid syarī'ah Index
