Abd. Rahim Razaq

Thank you for the team's efforts to make improvements to the article.
Based on the Reviewers' considerations, the article has, at some point, increased.
However, the team has to improve on a few more points. Hopefully are willing to do it.
Please follow the following revision instructions:

#Reviewer 2:

1. Provide context for the research: In the introduction section, providing a brief overview of the law state of family planning and reproductive health awareness in Indonesia would be beneficial.
 2. Strengthen the literature review: While the abstract mentions that the research method is a literature study, it would be valuable to provide more details on the sources consulted and the criteria for selecting relevant literature.
 3. Review language and writing style: Throughout the article, carefully review the language and writing style to ensure clarity and coherence. Pay attention to sentence structure, grammar, and transitions between paragraphs.
- Additionally, consider using more concise and precise language to convey information effectively.
Articles that have been revised and please send them back via this email.
