**Judul** : **Pandangan masyarakat tentang shalat sunnah sebelum Jum'at di kecamatan Makassar kelurahan Maccini**

---

Penelitian ini diangkat berdasarkan kejadian yang terjadi di masyarakat tatkala mereka datang ke masjid di hari Jum'at dan telah melakukan shalat tahiyatul masjid namun setelah adzan pertama berkumandang mereka berdiri lagi melakukan shalat sunnah dua raka'at, sejauh pengetahuan peneliti shalat sunnah sebelum Jum'at tidak ada. Maka dari itu penelitian ini dilakukan dengan tujuan untuk mengetahui bagaimana pandangan masyarakat tentang shalat sunnah sebelum Jum'at di Kelurahan Maccini dan bagaimana hukum shalat sunnah sebelum Jum'at menurut fiqh islam.

Metode yang digunakan dalam penelitian ini adalah penelitian kualitatif dengan pendekatan komunikatif dan sosial, dan metode pengumpulan data dilakukan dengan observasi, wawancara, dan dokumentasi. Analisis data dilakukan melalui reduksi data, penyajian data, analisis perbandingan, dan penarikan kesimpulan.

Hasil penelitian menunjukkan bahwa pandangan masyarakat berbeda-beda tentang shalat sunnah sebelum Jum'at tetapi mayoritasnya masyarakat melakukan shalat sunnah sebelum Jum'at karena ikut-ikutan dan beranggapan Jum'at sama dengan dzuhur karena waktu dzuhur mempunyai shalat sunnah qabliyah maka Jum'at juga memiliki sunnah qabliyah sementara hukum shalat sunnah sebelum Jum'at maka mayoritas para imam dari Malik, Syafi'i dan Ahmad bersepakat mengatakan bahwa tidak ada shalat sunnah sebelum Jum'at.

**Title** : **Community views on sunnah prayers before Friday in Makassar sub-district of Maccini sub-district**

---

This research was based on events that occurred in the community when they came to the mosque on Friday and had performed the tahiyatul prayer of the mosque but after the first adhan sounded they stood up again to perform two raka'at sunnah prayers, and as far as the knowledge of the researcher prayed the sunnah before Friday did not exist. Therefore, this study was conducted with the aim of knowing the views of the community about sunnah prayer before Friday in Maccini Village and knowing more about the law of sunnah prayer before Friday according to Islamic fiqh.

The method used in this study is qualitative research with communicative and social approaches, and data collection methods are carried out by observation, interviews, and documentation. Data analysis is carried out through data reduction, data presentation, comparative analysis, and conclusions.

The results showed that people's views differ about sunnah prayer before Friday but the majority of people do sunnah prayer before Friday because they follow along and think Friday is the same as dzuhur because the time of dzuhur has sunnah qabliyah prayer then Friday also has sunnah qabliyah while the law of sunnah prayer before Friday then the majority of imams from Malik, Shafi'i and Ahmad agree that there is no sunnah prayer before Friday.
