## **ABSTRACT**

**RAHMIATI. 2024. Effectiveness of Village Fund Policy in Financing Economic Development and Infrastructure in Pattiro Village, West Bangkala District, Jeneponto Regency. Development Economics Study Program, Faculty of Economics and Business, Muhammadiyah University of Makassar, supervised by: Muhammad Ikram Idrus and Ismail Rasulong.**

The aim of this research is to determine the effectiveness of village fund policies in economic and infrastructure development in Pattiro Village, West Bangkala District, Jeneponto Regency. As well as to find out how effective the use of village funds is in economic and infrastructure development in Pattiro Village, West Bangkala District, Jeneponto Regency. The type of research used is the Qualitative Descriptive method. The data processed is the result of interviews with the Pattiro village government and the Pattiro Village Community, then observation and documentation.

The results of this research show that the effectiveness of managing village fund allocation in economic and infrastructure development is in the effective category as seen from the effectiveness ratio. The Village Government is expected to maximize the management of village fund allocations in development and also for the community to participate in every village development, starting from planning, implementation and even being involved in monitoring so that the management of village fund allocations is right on target and development can run optimally.

**Keywords:** Effectiveness, Policy, Village Funds, Economic Development and Infrastructure.
