ABSTRACT

Rr. Nurfadhilah Annisa. S, Abdi, Haerana, 2024, Effectiveness of Motor Vehicle Tax Payment Based on the Bapenda Sulsel Mobile Application at the South Sulawesi Provincial Regional Revenue Agency.

The purpose of the study was to determine the Effectiveness of Motor Vehicle Tax Payments based on the Bapenda Sulsel Mobile Application at the South Sulawesi Provincial Regional Revenue Agency. This type of research uses qualitative methods with descriptive research types, data collection techniques through observation, interviews, and documentation, data sources come from 8 informants determined by purposive sampling, data validation techniques through source triangulation, technical triangulation, time triangulation while data analysis through data reduction, data presentation, conclusion drawing and verification.

The results showed that the effectiveness of Motor Vehicle Tax Payment based on the Bapenda Sulsel Mobile Application at the Regional Revenue Agency of South Sulawesi Province can be categorized as quite effective, because of the three indicators only one has not been effective. Achieving goals in its application streamlines time and the realization of Motor Vehicle Tax growth increases significantly which makes a high contribution to Regional Original Revenue. Integration carried out with several other agencies and several payment channels and the activeness of Bapenda Sulsel in socializing the Bapenda Sulsel Mobile application. Adaptation in terms of human resources is not yet adequate, there is still a lack of human resources for the development of this application, but the infrastructure is adequate.
