

## ABSTRAK

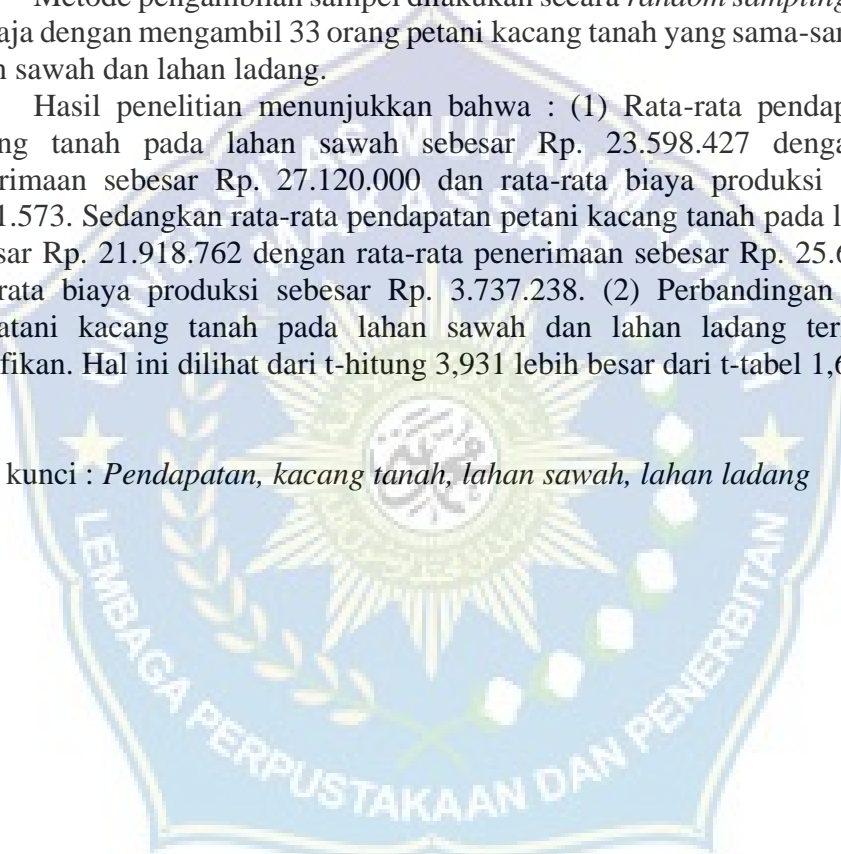

**Muh. Risaldi. 105961103120.** Analisis komparatif pendapatan petani pada usahatani kacang tanah pada lahan sawah dan lahan ladang di Desa Lanne Kecamatan Tondong Tallasa Kabupaten Pangkep. Dibimbing oleh Ratnawati Tahir dan Jumiati.

Penelitian ini bertujuan untuk menganalisis pendapatan petani dan perbandingan pendapatan usahatani kacang tanah pada lahan sawah dan lahan ladang di Desa Lanne Kecamatan Tondong Tallasa Kabupaten Pangkep.

Metode pengambilan sampel dilakukan secara *random sampling* atau secara sengaja dengan mengambil 33 orang petani kacang tanah yang sama-sama memiliki lahan sawah dan lahan ladang.

Hasil penelitian menunjukkan bahwa : (1) Rata-rata pendapatan petani kacang tanah pada lahan sawah sebesar Rp. 23.598.427 dengan rata-rata penerimaan sebesar Rp. 27.120.000 dan rata-rata biaya produksi sebesar Rp. 3.521.573. Sedangkan rata-rata pendapatan petani kacang tanah pada lahan ladang sebesar Rp. 21.918.762 dengan rata-rata penerimaan sebesar Rp. 25.656.000 dan rata-rata biaya produksi sebesar Rp. 3.737.238. (2) Perbandingan pendapatan usahatani kacang tanah pada lahan sawah dan lahan ladang terlihat cukup signifikan. Hal ini dilihat dari t-hitung 3,931 lebih besar dari t-tabel 1,669.

Kata kunci : *Pendapatan, kacang tanah, lahan sawah, lahan ladang*

## ***ABSTRACT***

**Muh. Risaldi. 105961103120.** Comparative analysis of farmers' income in peanut farming in paddy fields and fields in Lanne Village, Tondong Tallasa District, Pangkep Regency. Supervised by Ratnawati Tahir and Jumiati.

This research aims to analyze farmers' income and compare the income of peanut farming in paddy fields and agricultural land in Lanne Village, Tondong Tallasa District, Pangkep Regency.

The sampling method was carried out by random sampling or deliberately by taking 33 peanut farmers who both had rice fields and agricultural land.

The results of the research show that: (1) The average income of peanut farmers in rice fields is Rp. 23,598,427 with an average receipt of Rp. 27,120,000 and the average production cost is Rp. 3,521,573. Meanwhile, the average income of peanut farmers on field land is IDR. 21,918,762 with an average receipt of Rp. 25,656,000 and the average production cost is Rp. 3,737,238. (2) The comparison of peanut farming income in paddy fields and agricultural land looks quite significant. This can be seen from the t-count of 3.931 which is greater than the t-table of 1.669.

Key words: Income, peanuts, paddy fields, agricultural land
