## ABSTRACT

**Muh. Ali Fikri Subair, 2024. *The role of the Tellung Poccoe Islamic Education Foundation in improving Islamic-based education in Mampotu Village, Amali District, Bone Regency.***

The Tellung Poccoe Islamic Education Foundation is a foundation that has been established since 1986 until now. This foundation is located in Mampotu Village, Amali District, where the foundation has established 3 schools, namely Kindergarten, YAPIT Tsanawiyah Madrasah, YAPIT Aliyah Madrasah. The aim of this research is to find out the role of YAPIT in improving Islamic-based education and what the public's perception is of YAPIT's existence in improving Islamic-based education. This research was conducted using the Functional Structural theory by Emile Durkheim and the Theory of Community Perception by Carl Schmitt. In general, this theory emphasizes that every aspect of society, including social institutions, values and norms, has an important functional role in maintaining social stability. . The results of the research show that the role of the Tellung Poccoe Islamic Education Foundation has a positive and significant effect on improving Islamic-based education, in terms of the calculated T value it is greater than T table and the significant value is smaller than 0.05 so that Ho is rejected and Ha is accepted, thus showing that the role of the Islamic education foundation has an influence positive and significant towards improving Islamic-based education. The type of research used is quantitative research with a descriptive approach. Data collection was carried out through observations and questionnaires.
