ABSTRACT

Fitra Alya Kurnia. 105961101720. Analysis of the Effectiveness of Subsidized Pupuks Distribution to Rice Farmers in Jojjolo Village, Bulukumpa District, Bulukumba Regency. Supervised by Sitti Arwati and Rasdiana Mudatsir.

This study aims to analyze the effectiveness of subsidized fertilizer distribution based on appropriate indicators of success on rice farmers in Jojjolo Village, Bulukumpa District, Bulukumba Regency.

The sampling method used in this research is purposive sampling which is a sampling technique with certainty, the sample in this study were 23 farmers who are members of farmer groups who actively receive subsidized fertilizer in Jojjolo Village.

The results of this study indicate that the effectiveness of subsidized fertilizer distribution to rice farmers in Jojjolo Village, Bulukumpa Subdistrict, Bulukumba Regency is quite effective, this can be proven by the percentage of effectiveness of 63.47% based on the measurement of the effectiveness of subsidized fertilizer distribution measured as a whole which is measured using 5 precise indicators, namely the right type, the right amount, the right place, the right price, and the right time, the distribution of subsidized fertilizer in Jojjolo Village, Bulukumpa Subdistrict, Bulukumba Regency. Obstacles encountered include misperceptions at the farm level about RDKK and excessive use of fertilizer, subsidized fertilizer redeemed by farmers still exceeds the price ceiling, the distribution of subsidized fertilizer is often late.
