Kata Kunci: *Upah Buruh Tani, Nilai Tukar Petani, Tanaman Pangan*

ABSTRACT

Nur Indah Yuniar.105961102120. Analysis of the effect of farm labour wages on the exchange rate of food crop farmers in South Sulawesi province. Supervised by Sitti Wardah and Sri Mardiyati.

This study aims to determine how the trend of food crop farm labourers' wages in South Sulawesi province and the trend of food crop farmers' exchange rate in South Sulawesi province and to see the effect of farm labourers' wages on the exchange rate of food crop farmers in South Sulawesi province.

The data collection method used with secondary data in the form of monthly time series for the last 5 years with the selection of research locations determined deliberately with the consideration that South Sulawesi is one of the provinces with food producing centres in Indonesia.

The results showed that the trend of food crop farm labourers' wages in South Sulawesi province during the period 2018-2022 showed an increase of 0.6145 rupiah/month. The trend of food crop farmers' exchange rate in South Sulawesi Province during the period 2018-2022 showed a decrease of 0.1777 percent/month. Farm labourers' wages have a negative effect on the exchange rate of food crop farmers in South Sulawesi Province, where every 1 rupiah increase in farm labourers' wages will reduce the exchange rate of farmers by 28.5%.
