

ABSTRAK

Asmiani. 105191108220. 2024. *Pengaruh Kegiatan Kultum Setelah Shalat Berjamaah Terhadap Pemahaman Ajaran Islam Bagi Siswa di SMA Negeri 11 Enrekang.* dibimbing oleh Andi Mulawakkan Firdaus dan Ya'kub.

Penelitian ini menggunakan metode deskriptif kuantitatif yaitu bertujuan untuk mengetahui Pengaruh Kegiatan Kultum Setelah Shalat Berjamaah Terhadap Pemahaman Ajaran Islam Bagi Siswa di SMA Negeri 11 Enrekang.

Penelitian ini dilaksanakan di SMA Negeri 11 Enrekang yang berlangsung selama 2 bulan mulai dari Januari sampai Maret 2024. jumlah responden 80 orang siswa melalui dua variabel yaitu variabel bebas berupa Kegiatan Kultum dan variabel terikat berupa Pemahaman Ajaran Islam. Teknik analisis data yang di gunakan adalah regresi linear sederhana dengan menggunakan SPSS statistik 21.

Hasil penelitian ini menunjukkan bahwa berdasarkan uji statistik t, t hitung $10,582 > t$ tabel $1,668$ dan nilai signifikansi sebesar $0,000 < 0,05$ sehingga H_0 di tolak dan H_a di terima. Dalam artian bahwa kegiatan kultum dapat meningkatkan pemahaman Ajaran Islam bagi siswa maka semakin sering kegiatan kultum di laksanakan maka pemahaman Ajaran Islam juga akan meningkat begitupun sebaliknya jika kegiatan kultum jarang di laksanakan maka Pemahaman Ajaran Islam juga akan menurun. Kesimpulannya bahwa kegiatan kultum berpengaruh positif dan signifikan terhadap Pemahaman Ajaran Islam bagi siswa di SMA Negeri 11 Enrekang.

Kata Kunci: Kegiatan Kultum, Pemahaman Ajaran Islam

ABSTRACT

Asmiani. 105191108220. 2024. *The Influence of Cult Activities After Congregational Prayer on the Understanding of Islamic Teachings for Students at SMA Negeri 11 Enrekang.* Guided by Andi Mulawakkan, Firdaus and Ya'kub.

This study uses a quantitative descriptive method, which aims to determine the Influence of Cultum Activities After Congregational Prayer on the Understanding of Islamic Teachings for Students at SMA Negeri 11 Enrekang.

This research was carried out at SMA Negeri 11 Enrekang which lasted for 2 months from January to March 2024. The number of respondents was 80 students through two variables, namely the independent variable in the form of Cult Activities and the dependent variable in the form of Understanding Islamic Teachings. The data analysis technique used is simple linear regression using SPSS statistics 21.

The results of this study showed that based on statistical tests t , t count $10.582 > t$ table 1.668 and significance values of $0.000 < 0.05$ so that H_0 was rejected and H_a was accepted. In the sense that cult activities can increase the understanding of Islamic Teachings for students, the more often cult activities are carried out, the understanding of Islamic Teachings will also increase and vice versa if cult activities are rarely carried out, the understanding of Islamic Teachings will also decrease. conclusion is that cult activities have a positive and significant effect on the understanding of Islamic Teachings will also decrease. So the conclusion is that cult activities have a positive and significant effect on the understanding of Islamic teachings for students at SMA Negeri 11 Enrekang.

Keywords: *cult activities, understanding Islamic teachings*
