## Text Speech Bung Karno (June 1, 1945) - Part One

Rewritten: Muhammad Ilham

One advantage of the founding fathers ..... insight and breadth of their reading. Reading a multicultural and multi-ideological, making them fanatically not stuck on one ideology and culture course. Something that is hard to find in this latter figure (Taufik Abdullah)

Chairman of the noble lord your majesty! After three consecutive days Dokuritsu members ZyunbiTyosakai issued its opinions, so now I have the honor of hosting the Chairman of the noble lord to express my opinion anyway. I will keep demand for the noble lord lord Chairman yan. Is demanders Chairman noble lord lord? Chairman of the noble lord your majesty ask kepadsdangDkuritsuTyosakai to express basic Zyunbi Indonesia Merdeka. Nat! this basis that I will argue this in my speech. Sorry a thousand sorry! Many members have been addressed, and in their speeches expressed the things that is not actually request the Chairman of Noble lord lord, that is not essentially an independent Indonesia. According to my assumption which was asked by the noble lord is Mr. Chairman in Dutch: "That grondslagPhilosophischepundamen, philosophy, deep thinking and deep passion for it was founded in Indonesia Merdeka building a lasting and enduring. This will be raised by me. Chief master the noble lord, but first let me discuss with the lords and gentlemen what do I mean by the word "freedom". Freedom for me is the "political independence". politiekeonafhankelijkheid. Is that called politiekeonafhankelijkheid?

Gentlemen all! Frankly I'm just saying. When DokuritsuZyunbiTyosakai will convene, then in my heart a lot of worry, in case many members as I say in a foreign language, forgive these words "zwaarwichtig" will be the case that small "Zwaarwichtig" until the Javanese word "meticulous". If already talking about the little things to meticulous, did they dare to declare independence. Dear Sirs! Look at the history of the world, to travel the world see it.

Lots of countries are independent, but independence of the countries compare to each other! Samakan contents, samakah degree of independent states that? Germania independence, independence of Saudi Arabia, Iran's independence, China's independence, Nippon independence, American independence, the British independent, independent Russia, Egypt's independence. His name is all free, but compare it. How different the contents of that! If we say, Before the State of Independence, it must first be completed. It is finished, it finished, until the meticulous! So I asked the gentlemen gentlemen why Saudi Arabia's independence, whereas 80% of subjects consists of the Bedouin, who did not understand this or that. Armstrong read a book that tells about Ibn Saud. There turns out that when Ibn Saud established Saudi Arabia's government, the people of Arabia did not yet know that most of the automobile needs to drink gasoline. On one day the automobile Ibn Saud fed wheat by Bedouin in Saudi Arabia that! Yet Saudi Arabia's independence.

Look well if these gentlemen want a more powerful example of Soviet Russia! During the Soviet state Lenin founded the Soviet people there are smart? One hundred and fifty milyun the Russian people, the people Musyik more than 80% can not read and write, even from the famous books of Leo Tolstor and Fulop Miller, gentlemen know how the people of Soviet Russia's state at the time of Lenin founded the Soviet state it. And here we are now attempting to build a state of Indonesia Merdeka. Too many kinds of questions we argue! Sorry, PT Zimukyokutyoo! Stand up I have a book, if I read the host got a letter, which requested the order has intended us to this meticulous and it's them first! If it is true all these things must be completed first, to meticulous, so I will not have an independent Indonesia, the host will not experience Indonesia Merdeka, we will not experience all of Indonesia's independence, arrived at the Pit! (Applause)

Brothers and Sisters! Is the so-called independent? In the 33 years I have written a

said, that independence, politiekeonafhankelijkheid, political independence, none other is not, is of a bridge, a bridge of gold. I say in the book, that the bridge across that we have perfected our society.

Ibn Saud held a single country in one night, in one night only! Armstrong said in his book, Ibn Saud of Saudi Arabia mendirikanMerdeka in one night after he entered the city of Riyadh with 6 people! After the "bridge" was laid by Ibn Saud, then across the bridge, meaning then than it is, then fix the Ibn Saud of Saudi Arabia. People who can not read the required learning to read, people who had drifted as Nomade, the Bedouin, taught a lesson and plant crops. Nomade amended by Ibn Saud became the peasantry, all across the jembatan. Is there a Lenin when he founded the nation Merdeka Soviet Russia, has had Djnepprprostoff, and that is great in the river Djeppr? What he had possessed a radio-station, yan heading into space? What she has had enough train-train, to cover the entire Russian nation? Does every man Russia at the time of Lenin founded the Free Soviet Russia has been able to read and write?

No, the honorable gentlemen! Across the bridge of gold held by Lenin's Lenin's new-held radio station, held a new school, new Greche hold, held Djnepprprostoff new! So therefore I ask the gentlemen and gentlemen, gentlemen do not tremble in my heart, do not remember that this and that first must be completed with meticulous and when it's finished, then we can be independent. How berdaannya gentlemen have the spirit, if such gentlemen, the spirit of our youth are two milyunlumber. Two young men milyun convey appeal to me, two young men were all eager milyun Indonesia Merdeka now! (Boisterous applause)

Ladies and Gentlemen, why do we as leaders of the people, who know the history, became zwaarwichtig, be afraid, padan motto of Indonesia Merdeka instead now we broadcast? Decades ago, we have broadcast the motto of Indonesia Merdeka, even since 1932 with obviously we have the motto, "Freedom INDONESIA NOW" Even three times now, namely Indonesia Merdeka Now, now, now! (Boisterous applause) And now we face the opportunity to develop Indonesia Merdeka, why then we zwaarwichtig and trembling out! Brethren, I warn you once again, Indonesia Merdeka, political independence, politiekeonafhankelijkheid, none other than to a bridge. Do not be afraid! If for instance, we are at the present time given the opportunity by Dai Nippon for independence, it is easily Gunseikon replaced by someone named TjondroAsmoro, or replaced Snomubutyo premises the person named Abdul Halim. If for example Butyoo-Butyoo replaced with those of Indonesia, at present, in fact we have gained political independence, politiekeonafhankelijkheid, in one night, in one night!

Brothers and sisters, two young men who milyun, all slogan Indonesia Merdeka, now! If for instance Dai Nippon army, now hand over the affairs of state to the brothers, whether the brothers would refuse, and said mangkerumiyin, wait, get this and that done first, then we dare to accept the state affairs of Indonesia Them? (Appeal audience, No, No!) Brethren, if for instance at the present time Balakentara Dai Nippon transfer matters to our country, so one minute we will not refuse, even now we accept that matter, even now we start with the state of Indonesia Merdeka! (Applause audience appalling)

Brethren, I'd say, there perbeaan between Soviet Russia, Saudi Arabia, Britain, America and others about its contents, but there is the same one, namely the people of Saudi Arabia could defend his country, Musik-musyk in Russia could defend his country. The American people could defend his country, British people could defend his country. This is the minimum-eis. That is, if there are other skills, certainly better, but when a nation has been able to defend his country with his own blood, with his own flesh, at the time the nation had been ripe for independence. If our nation, Indonesia, although with bamboo spears, brothers and sisters, all ready to die, defending our homeland Indonesia. Indonesia at that time the nation is ready, cook for Merdeka. (Boisterous applause)

Try to think of this by comparing it with humans. Humans, too, the brothers and sisters! Supporting my undersodong compare with mamang. There is a bold, mating, nation

quick daring, there is a fear of marriage. Some said, Ah, I have not dared to marry, wait a salary F500. If I already have a house building, the existing carpet, there are already electric lights, already has a bed-mentulmentul, already have a desk chair, which is as complete, already has a set of silver flatware, already have this and that, even Kinder-uitzet already have, then I dare marry. There are others who say, I had dared to marry if I already have one table, four chairs, namely "dining table", then one sitje, then a bed. Some people are more daring than that, the brothers Marhaen! If he had just had a hut with a mat, with a pot, he marries. Marhaen with one mat, one hut, mating. The clerk with one table, four chairs, one zitje, one bed, mating.

The building houses that have Ndoro, elektrischekookplaat, bedding, money piled-Hide, mating. Which is not necessarily more gelukkig, which is not necessarily a happier, the Ndoro with place-slumber-mentulmentul, or SarinemoSamion who only have one mat and one pot, folks! (Applause and laughter). His determination of need, determination Samiun her mate with a mat and a pot, and the heart of the brave new Ndoro married when he had one cassette plus gerozilverkinderuitzet, for 3 years lamany! (Laughs)

Brothers and sisters, because is this, we are brave independent or not? This, brothers and sisters, Chairman of the noble lord My lord, my first size, stated before I am talking about things that are essentially an independent state. I heard the description of PT Soetardjo few days ago, when answering whether the so-called independent, he said, if each person in his heart has been independent, that independence brethren, if every man in Indonesia of which 70 are first milyun must independent in his heart, before we can achieve political independence. I repeat again, until the melting of Resurrection we have not been able to Indonesia free! (Applause). Inside Indonesia's Merdeka we liberate our people. In Indonesia Merdeka in his heart that we liberate our nation! Inside Saudi Arabia Merdeka Ibn Saud Arabia, liberate the people one by one. In Soviet Russia in the liver liberate the nation Merdeka Stalin's Soviet Russia one by one. Brothers and Sisters! As well as one speaker said, We are the Indonesian nation of unhealthy body, many diseases of malaria, dysentery, many, many diseases hungerudeem, many of this crowd, "Sehatkan our nation first, and then independence."

I said, if this had to be resolved first, 20 years from now we are not yet independent. Inside Indonesia's Merdeka we nourish our people, although such is not with quinine, but we muster all our communities to eliminate malaria by planting ketepeng buffalo. Inside Indonesia Merdeka we train our youth in order to be strong in Indonesia Merdeka our has to make healthy people. Here's what I mean by the word "bridge". Across the bridge golden bridge this new society we are free to arrange Indonesia Merdeka handsome, strong, healthy, eternal, and immutable.

Gentlemen all, We are now faced with a moment that all-important. Do not we know, as has been expressed by dozens of speakers, that the actual internasionalrecht, international law, oversimplify our work? To prepare, conduct, admitted one independent country, not held adventurous conditions, which menjelmet, not Requirement is simply the earth, the people, the government is steadfast! This was enough to internasionalrecht Enough, brethren. But if we have their ground, no people, no government, then recognized by one country to another, independent, this is what has been called, Freedom. No matter the people can read it or not, no matter how great the people of the economy or not, no matter how stupid or smart people, the origin of international law according to the terms having an independent state, that there are people, there is earth and there is a rule, never mind he is independent. Let us not dither, zwaarwichtig, then want to finish first in 1001 about the absurd! Again I ask, How independent or not? Want independence or not? (The audience answered in unison, Mauuu!) - (Continued)
