Reflection On Heroes

Bismillahirrahmanirrohim...

MERDEKA!

Brothers commoners all over Indonesia.

Especially the brothers resident of Surabaya. We all already know that today British troops have been spreading pamphlets that provide a threat to us all. We are required to specify in their time surrender of weapons which he had taken from his Japanese army. They have asked that we come at them with carrying a white flag to signal that we give them.

Brothers and sisters

In the past battles that we all have demonstrated that the people of Indonesia in Surabaya

Young men who came from the Moluccas

Young men who came from Sulawesi

Young men who came from the island of Bali

Young men who came from Borneo

Youths from all over Sumatra

Acehnese youth, youth Tapanuli, and all youth Indonesia in Surabaya are in the forces of their respective with the forces that shaped the people in the villages have shown a defense that can not be uprooted have shown a strength so they were stuck everywhere.

Only because of the sneaky tactics that they were brothers and sisters to bring the president and other leaders to Surabaya then we dismiss this subject for battle but in those days they had strengthened themselves and after strong now here's the situation.

Our brothers are all

Our nation Indonesia in Surabaya are British troops would accept the challenge that and if the leadership of British troops in Surabaya want to listen to answers people Indonesia want to listen to answers all youth in Surabaya Indonesia, supplying this listening to this English soldier.

This is our answer

This answer to the people of Surabaya

This answer the youth Indonesia to you all

Hi English army

You wished that we will bring a white flag to surrender to you. You told us to come to raise their hands. You told us to bring the weapons we have seized from the Japanese soldiers to be handed to you demands that even though we know that you will once again threaten our to demolish our answer:

Indonesia during the struggle still have the red blood who can make a piece of white cloth of red and white so for us it would not be willing to surrender to anybody.

Brothers and sisters of the people of Surabaya, ready! Precarious situation! But I warn you once again do not start shooting just when we shot then we will replace them attack us show that we are really people who want to be independent.

And to our brothers and sisters. We better destroyed than not independent our motto remains: independence or death!

And we believe the brothers in the end victory will surely fall into the hands of our because god is always in the right believe me brothers and sisters god will protect us all.

Allahuakbar! Allahuakbar! Allahuakbar

MERDEKA
