Penelitian ini bertujuan untuk menganalisis peran Badan Usaha Milik Desa (BUMDes) Desa Patimpeng dalam meningkatkan kesejahteraan masyarakat desa. Metode penelitian yang digunakan adalah kualitatif dengan teknik pengumpulan data melalui wawancara, observasi, dan dokumentasi. Hasil penelitian menunjukkan bahwa BUMDes Desa Patimpeng berperan dalam mendukung perekonomian masyarakat melalui penyediaan layanan usaha desa dan penciptaan peluang usaha. Namun, pelaksanaannya belum optimal karena adanya keterbatasan modal, biaya operasional, serta kemampuan sumber daya manusia pengelola. Oleh karena itu, diperlukan peningkatan pengelolaan, khususnya pada aspek manajemen dan administrasi keuangan, serta dukungan berkelanjutan dari pemerintah desa agar BUMDes dapat berperan lebih efektif dalam meningkatkan kesejahteraan masyarakat.

*This study aims to analyze the role of the Village-Owned Enterprise (BUMDes) of Patimpeng Village in improving the welfare of the village community. The research method used is qualitative, with data collection techniques including interviews, observation, and documentation. The results show that the BUMDes of Patimpeng Village plays a role in supporting the community's economy through the provision of village business services and the creation of business opportunities. However, its implementation has not been optimal due to limitations in capital, operational costs, and the managerial capacity of human resources. Therefore, improvements in management, particularly in financial management and administration, as well as continuous support from the village government, are needed so that BUMDes can play a more effective role in improving community welfare.*
