

## ABSTRACT

**NR, ASKAR.**2020. *The Effectiveness of Using Scanning Technique on Students' Reading Comprehension of First Graders at SMAN 4 Jeneponto.(Pre-experimental Reasearch)* Thesis of English Education Departmet. Faculty of Teacher Training and education, Makassar Muhammadiyah University. (guided by Ummi Khaerati Syam S.Pd., M.Pd. and Andi Asri Jumiaty S.Pd., M.Pd.).

The objectives of this research were intended to find out the reading comprehension achievement in reading comprehension skill using scanning technique. This research applied pre-experimental method with one pre-test and post-test design. The population of this research was the first grade of SMAN 4 Jeneponto, academic years 2019/2020. The total sample of this research consists 32 students. The variable of this research were dependent and independent variable. Dependent variable was student reading comprehension in term main idea and supporting idea while independent variable was scanning technique.

The results of data analysis showed that the mean score of post-test was higher than the mean score of pre-test using scanning technique ( $74.8 > 51.3$ ) in student reading comprehension in term supporting idea ( $79.8 > 44.5$ ), after analyzing the data, the t-test value of main idea and supporting idea were higher than t-table, the t-test value of main idea was 6.91 and t-test value of supporting idea was 11.3, while the value of t-table was 2.03.it mean that there was a significant difference of students' reading comprehension in term main idea and supporting idea ,between before and after using scanning technique .

Key Word: Effectiveness, Scanning Technique, Reading Comprehension
