Program Studi Pendidikan Guru Sekolah Dasar, Fakultas Keguruan dan Ilmu Pendidikan, Universitas Muhammadiyah Makassar. Dibimbing oleh Aliem Bahri dan Sri Rahayu.

Penelitian ini dilatarbelakangi oleh rendahnya keterampilan menulis cerpen siswa kelas V SD Negeri 22 Kalukue Kabupaten Pangkep. Masalah utama meliputi kesulitan siswa dalam menuangkan gagasan ke dalam bentuk cerita serta metode pembelajaran guru yang masih bersifat tradisional dan kurang inovatif. Penelitian ini bertujuan untuk mendeskripsikan aktivitas belajar dan mengetahui peningkatan keterampilan menulis cerpen siswa melalui penerapan strategi *Lipirtup* (Lihat, Pilih, Renungkan, Tuangkan, dan Publikasikan) yang berbasis media film inspiratif Sekolah Rimba.

Jenis penelitian ini adalah Penelitian Tindakan Kelas (PTK) yang dilaksanakan dalam dua siklus. Subjek penelitian adalah siswa kelas V SD Negeri 22 Kalukue yang berjumlah 20 orang. Teknik pengumpulan data yang digunakan meliputi observasi, tes hasil belajar (menulis cerpen), dan dokumentasi. Data dianalisis secara kuantitatif untuk melihat ketuntasan hasil belajar dan kualitatif untuk mendeskripsikan aktivitas siswa dan aktivitas guru.

Hasil penelitian menunjukkan adanya peningkatan yang signifikan pada setiap siklusnya. Pada Siklus I, persentase ketuntasan belajar siswa hanya mencapai 40% (8 siswa) dengan rata-rata nilai yang masih di bawah Kriteria Ketercapaian Tujuan Pembelajaran (KKTP). Setelah dilakukan perbaikan pada Siklus II, persentase ketuntasan melonjak drastis menjadi 95% (19 siswa). Peningkatan sebesar 55% ini membuktikan bahwa strategi *Lipirtup* berbasis film inspiratif Sekolah Rimba efektif dalam meningkatkan motivasi, partisipasi aktif, serta kemampuan siswa dalam menyusun cerpen secara sistematis dan kreatif.

ABSTRACT

Syarifah Nurhikmah, 2026. *The Implementation of the Lipirtup Strategy Based on the Inspirational Film “Sekolah Rimba” in Improving Short Story Writing Skills of Fifth Grade Students at SD Negeri 22 Kalukue, Pangkep Regency.* Undergraduate Thesis. Primary School Teacher Education Study Program, Faculty of Teacher Training and Education, Universitas Muhammadiyah Makassar. Supervised by Aliem Bahri and Sri Rahayu.

This research was motivated by the low short story writing skills of fifth-grade students at SD Negeri 22 Kalukue, Pangkep Regency. The main problems included students' difficulties in expressing ideas in the form of stories and the teacher's learning methods which were still traditional and less innovative. This study aims to describe learning activities and to determine the improvement in students' short story writing skills through the implementation of the Lipirtup strategy (Observe, Select, Reflect, Express, and Publish) based on the inspirational film *Sekolah Rimba*.

This research is a Classroom Action Research (CAR) conducted in two cycles. The research subjects were 20 fifth-grade students of SD Negeri 22 Kalukue. Data collection techniques included observation, learning outcome tests (short story writing), and documentation. The data were analyzed quantitatively to determine learning mastery and qualitatively to describe student activities and teacher activities.

The results of the study showed a significant improvement in each cycle. In Cycle I, the percentage of students achieving learning mastery was only 40% (8 students) with an average score still below the Learning Objective Achievement Criteria (KKTP). After improvements were made in Cycle II, the percentage of learning mastery increased drastically to 95% (19 students). This 55% increase proves that the Lipirtup strategy based on the inspirational film *Sekolah Rimba* is effective in improving motivation, active participation, and students' ability to compose short stories systematically and creatively.
