

## ABSTRAK

**Adzkiyah Mubarakah. B. 10596111321.** Strategi Nafkah Rumah Tangga Petani Ubi Jalar di Kelurahan Lakawan Kecamatan Anggeraja Kabupaten Enrekang. Dibimbing oleh Nadir dan Muh Ikmal Saleh.

Penelitian ini bertujuan untuk mengetahui hambatan dalam usahatani ubi jalar dan strategi nafkah rumah tangga apa yang digunakan petani ubi jalar di Kelurahan Lakawan Kecamatan Anggeraja Kabupaten Enrekang

Penelitian ini bersifat kualitatif dengan pengambilan informan menggunakan metode snowball sampling, melibatkan dua jenis data yaitu data primer dan sekunder, serta mengumpulkan data melalui observasi, wawancara, dan dokumentasi. Analisis data dilakukan melalui proses reduksi data, penyajian data, dan penarikan kesimpulan.

Hasil penelitian menunjukkan bahwa petani ubi jalar di Kelurahan Lakawan kekurangan modal sehingga menjadi hambatan utama kemudian petani juga mengalami fluktuasi harga serta akses jalan yang belum memadai. Dalam meningkatkan kesejahteraan rumah tangga petani menggunakan strategi penghidupan berupa on-farm, off-farm dan non farm dengan memanfaatkan aset nafkah berupa modal alam, modal manusia, modal fisik, modal sosial, modal finansial.

## **ABSTRACT**

**Adzkiyah Mubarakah. B. 105961111321.** *Livelihood Strategy of Sweet Potato Farmer Households in Lakawan Village, Anggeraja District, Enrekang Regency. Supervised by Nadir and Muh Ikmal Saleh.*

*This research aims to determine the obstacles in sweet potato farming and what household livelihood strategies are used by sweet potato farmers in Lakawan Village, Anggeraja District, Enrekang Regency.*

*This research is qualitative in nature by taking informants using the snowball sampling method, involving two types of data, namely primary and secondary data, and collecting data through observation, interviews and documentation. Data analysis was carried out through a process of data reduction, data presentation, and drawing conclusions.*

*The results of the research show that sweet potato farmers in Lakawan Subdistrict lack capital, which is a major obstacle and farmers also experience price fluctuations and inadequate road access. In improving the welfare of farming households, they use livelihood strategies in the form of on-farm, off-farm and non-farm by utilizing livelihood assets in the form of natural capital, human capital, physical capital, social capital, financial capital.*
