

ABSTRAK

ZULKIFLI SAKIR 105961101521, Peran Penyuluh Pertanian Terhadap Kelompok Tani Padi di Desa Moncobalang Kecamatan Barombong Kabupaten Gowa. Dibimbing oleh Saleh Molla dan Ardi Rumallang.

Penelitian ini bertujuan untuk mengetahui bagaimana pelaksanaan kegiatan penyuluh terhadap kelompok tani padi, serta bagaimana peran penyuluh sebagai motivator, edukator, fasilitator, inovator dan monitoring terhadap kelompok tani padi di Desa Moncobalang Kecamatan Barombong Kabupaten Gowa.

Metode penelitian yang digunakan adalah analisis deskriptif kualitatif dengan teknik pengumpulan data melalui kuesioner dan wawancara, serta analisis data menggunakan skala Likert untuk mengukur persepsi, sikap dan jawaban kelompok tani.

Hasil penelitian menunjukkan bahwa pelaksanaan Kegiatan penyuluh pertanian yang dilakukan meliputi penyuluhan rutin kepada kelompok tani mengenai teknik budidaya padi dengan baik, pengendalian hama dan penyakit, serta penggunaan pupuk yang tepat. Peran penyuluh pertanian di Desa Moncobalang Kecamatan Barombong Kabupaten Gowa termasuk kategori tinggi dengan nilai 2,48. Peran sebagai motivator dengan nilai 2,74 termasuk kategori tinggi, edukator dengan skor 2,54, fasilitator dengan skor 2,46, dan sebagai monitoring dengan skor 2,57. Namun peran sebagai inovator masih tergolong sedang dengan skor 2,09 dan nilai kurang efektif.

ABSTRACT

ZULKIFLI SAKIR 105961101521, *The Role of Agricultural Extension Workers in Rice Farmer Groups in Moncobalang Village, Barombong District, Gowa Regency. Supervised by Saleh Molla and Ardi Rumallang.*

This study aims to find out how the activities of agricultural extension workers are carried out and how their roles as motivators, educators, facilitators, innovators, and monitors affect rice farmer groups in Moncobalang Village, Barombong District, Gowa Regency.

The research method used is qualitative descriptive analysis with data collection techniques through questionnaires and interviews, and data analysis using a Likert scale to measure the perceptions, attitudes, and responses of the farmer groups.

The results of the study showed that the implementation of agricultural extension activities carried out included routine extension to farmer groups regarding good rice cultivation techniques, pest and disease control, and proper use of fertilizers. The role of agricultural extension workers in Moncobalang Village, Barombong District, Gowa Regency is included in the high category with a value of 2.48. The role as a motivator with a value of 2.74 is included in the high category, educator with a score of 2.54, facilitator with a score of 2.46, and as a monitor with a score of 2.57. However, the role as an innovator is still classified as moderate with a score of 2.09 and a less effective value.
